Description of Services and Fee Schedule

Services Billable to Insurance:

❖ ***Occupational Therapy Evaluation: \$130***

Areas assessed: Fine and gross motor coordination, visual perception and visual motor skills, self-care skills, and/or sensory integration and praxis.

Evaluation components: records review, observation and assessment of child, caregiver interview, scoring and interpretation of collected information, written evaluation report and recommendations may include proposed goals.

Evaluations take approximately 1 hour to administer. On rare occasions, children have difficulty sitting through the evaluation. When appropriate or necessary a child may be brought back for a second observation or home/school observation at additional cost. This decision will be made between the therapist and parents, based on information gathered on the day of testing and the parent interview/questionnaire.

Occupational Therapy evaluations done by other facilities will be accepted if they are current (within 1 year).

❖ ***Direct Occupational Therapy Services (treatment sessions):*** Varies by Service

Services Not Billable to Insurance:

❖ ***Consultation: \$75/hr***

On occasion consultations outside of regular treatment sessions are necessary. These may include visits/consultations with teachers, caregivers, etc.. These appointments are made at the discretion of the therapist and caregiver.

We are always available for brief phone conversations regarding your child's progress. Phone conversations beyond 5-10 minutes will be billed as consultative services.

❖ ***Special Programs/Camps: Cost varies***

*Any exceptions to the above fee schedule will be discussed prior to services beginning. In order to be eligible for any fee reduction based on a sliding fee scale, you must provide OTCES with proof of income.
